

Venkateshwar International School

where dreams come true.....

School Vision : Compassion, Innovation, Responsibility

We build a responsible learning community steeped in compassion, ingenious in innovation

Calendar 2022-23

About VIS Clubs and Societies

Be strong, be fearless, be optimistic and believe everything is possible. Let your vision be ahead of your sight!

VIS is a centre of excellence with minds that share a passionate commitment around common purposes. We believe the only way to discover the limits is to go beyond, into the impossible. Our school clubs are akin to small communities that provide opportunities to young innovative minds to -

- ❖ *Hone their abilities and co-relate academic skills with the real world.*
- ❖ *Undertake research based learning and mindful collaboration*
- ❖ *Interact with different institutions and communities*
- ❖ *Enhance self-awareness, social consciousness and critical thinking*
- ❖ *Organise, analyse, create and adopt technological advancements*
- ❖ *Accept, respect, participate and articulate as responsible citizens of a global community*

HOW CAN AI HELP IN REVIVING THE ECONOMY?

Ms. Meenu Kumar (HOD Computer Science)

With the Covid-19 pandemic causing so much devastation, the world is looking for ways to revive the economy. AI has emerged as a powerful tool in this regard. It can help in various ways, such as automating tasks, improving efficiency, and creating new jobs. AI can also help in predicting market trends and making informed decisions. The potential of AI in reviving the economy is vast, and it is crucial for us to explore it further.

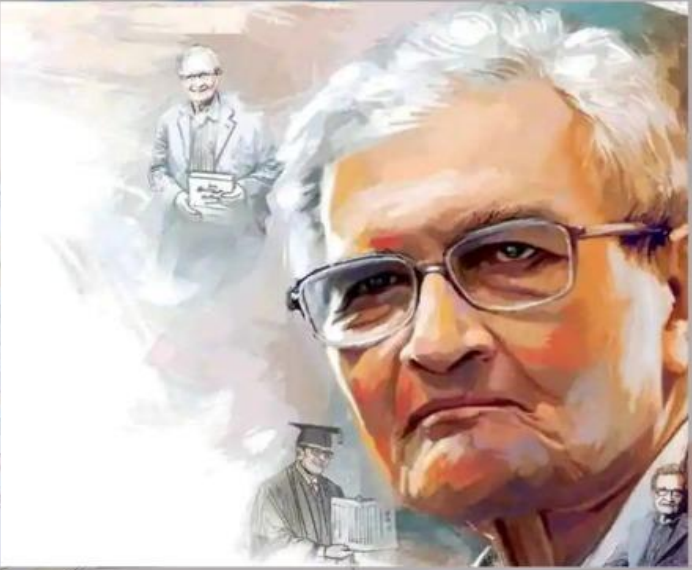

SECURITIES

POKE BY SHYAMA SUDAN, ED MULLAPU

Telling one and each
Enhancing your living standard,
Can we embrace the capital
Without becoming a fugitive?

Well, it seems a task.
So would be different ways.
To gradually earn and grow.
Our 'Securities' we can use
Investing in any however.
Would depend on your appetite
The amount of risk you afford.
Can decide your future risk
To expand and make funds.
One invests in stocks and bonds.
A good financial planning is then needed
Each respective gain and loss
Should be well thought of.
This long-term strategy of the future
To diversify your portfolio.
Make sure to add their most proportion
Mutual Funds and ETFs
And the common stocks.
For investing diversity.
They are many assets.
The more they vary, the more of the better.
Can be at your convenience.
Considering your expertise at
Investment or price movements.
Then there are general equity funds
Along with Hedge Funds.
Both can offer high risks
And provide higher returns.
At the end, it's all up to you.
Which requires adequate resources
Should be able to grow, if provided.
With securities and their knowledge.

CHINESE AND AMERICAN DOMINATION

Phonics Part, JKS Hyderabad

We have been very much influenced by the history between China and America as both have been going on each other's economic rise and fall. The world has been dominated by the two superpowers for a long time.

In the early 20th century, America was considered the most powerful nation in the world. It had a strong economy and a large military. China, on the other hand, was a weak nation with a small economy and a small military. However, in the late 20th century, China started to rise. It became a major economic power and a global superpower. Today, China and America are the two most powerful nations in the world, and their relationship is the most important one in the world.

PREFACE

"Economics is the study of the behavior of individuals and groups in the allocation of scarce resources. It is a social science that seeks to understand the choices that individuals and groups make in the face of scarcity. The purpose of this book is to provide a comprehensive overview of the field of economics, from its origins to its current state. It is intended for students of economics and for anyone interested in the subject. The book is divided into two main parts: the first part covers the basic principles of economics, and the second part covers the application of these principles to various economic issues. The book is written in a clear and concise style, and it includes many examples and illustrations to help readers understand the concepts. It is a valuable resource for anyone studying economics or interested in the subject."

Literarsis & Animum Flectere

Literanimum

VIS Literarsis is a hub for all; from the little boy penning down his experiences, to the highly seasoned and polished writers.

Animum Flectere is a place where we believe it is better to debate a question without settling it than to settle a question without debating it.
